

DUAL ENROLLMENT ADMISSIONS TESTING

Applicants must meet minimum regular admissions test score requirements to participate in the Dual Enrollment Program. Lanier Technical College administers the ACCUPLACER exam for placement. ACCUPLACER tests are used to place students where they will be most successful based on academic skill levels. All programs require scores for reading, writing, and math.

Applicants for admission to the Dual Enrollment Programs who do not score at the program admission level on one or more sections of the ACCUPLACER may re-test. Dual Enrollment students are allowed two attempts per academic year while enrolled in high school. Re-tests will only be administered for the sections that were not at the minimum score requirement. Students needing to re-test must wait a period of 30 days between the original test and re-test.

Lanier Technical College also accepts other readiness documentation such as HOPE GPA, SAT, ACT, & PSAT. A minimum 2.60 HOPE GPA after completion of 10th grade must be provided to the college by a verified source (i.e. high school counselor). SAT, ACT, & PSAT scores that meet the minimum admission score requirements must be requested and sent to the college prior to posted application deadlines. Please see the minimum requirements below.
