

TRADES IN TRAINING

WHAT IS THE TRADES IN TRAINING PROGRAM?

Trades in Training is a program for **Work-Based Learning** students that are Construction or Metals pathway completers from any of the HCSD high schools. Interns will have the opportunity to get real-world experience and advanced educational opportunities within all aspects of the construction industry. Interns will travel to various work sites on Hall County Schools' properties and be exposed to the basic business systems involved in the construction industry, including carpentry, electrical, plumbing, HVAC, and more. This internship will be a **paid opportunity**. Students must submit this application, a resume, and interview to be considered for this program.
