

BASIC SHIELDED & GAS METAL ARC WELDER

lcca.hallco.org/dual-enrollment

DUAL ENROLLMENT

@ LANIER COLLEGE & CAREER ACADEMY

Please send questions to LCCADualEnrollment@hallco.org

The Basic Shielded Metal Arc Welder Certificate prepares students for careers in the welding and joining industry with an emphasis on arc welding in the flat position.

The Gas Metal Arc Welder Certificate prepares students for welding careers in the MIG process.

- **High demand area**
- Job prospects are good for welders trained in the latest technologies. Welding schools report that graduates have little difficulty finding work, and many welding employers report difficulty finding properly skilled welders.

Program Specific Core (2 Certificates) - 16 hours

- WELD 1000 Intro to Welding Technology (4)
- WELD 1010 Oxyfuel Cutting (4)

100% Job Placement Rate

Certificates are offered in partnership with Lanier Technical College and are designed to meet the planning needs of Northeast Georgia. Students are provided with unique, hands-on learning opportunities to ensure they graduate career ready.

Students can earn both Basic Shielded and Gas Metal Arc Welder Certificates in one year, if a C or higher is earned in each course. These courses can be built upon to complete a diploma program.
