Message from Administration

Parents,

Thank you for a great start to our school year! We had a productive parent meeting on August 20, where we played games, learned about graduation requirements, and continued to build our community. We also discussed the opportunity of joining the LCCA Parent Council. If you are interested in serving on the LCCA Parent Council, and have not spoken with me already, please give me a call or email and let me know. Thank you for your consideration!

If your child is a part-time (PT) student, they have an opportunity to join a CTSO! All of our PT students are in CTAE classes which have CTSOs such as FFA, DECA, FCCLA, or SkillUSA, attached to them. These organizations offer opportunities to grow leadership skills and technical skills while competing to represent our programs and district. Please encourage your students to participate! If you have any questions about CTSOs, reach out to your child's teacher or LCCA administration.

If your child is a full-time (FT) student at LCCA, please make sure you have [submitted your lunch application](#) if you would like to. LCCA has many students who are paying full price for breakfast and lunch, but have not in the past. Almost all of our FT students have signed our [LCCA Academic Success Agreement](#)! It is early, but student attendance in the FT program is improved over last year.

Mitch Murphy

Principal, LCCA

News

- Does your full-time student want to participate in athletics? They can do that with the high school that your address is districted for, as long as they meet the requirements of that school and are also academically eligible per the GHSA. Contact Mr. Murphy at LCCA for details.
- If your child is graduating with the class of 2027, please check with LCCA to pay lunchroom and any other charges that may have accumulated with Hall County Schools since they began school with the district.

Support Your Child's Academic Growth!

- Help your child set a regular sleep schedule. Teens need 9 to 9.5 hours of sleep each night to support their developing brain and physical growth.
